

Ernie Little's Norfolk Southern Connector

November 4, 2023

On Saturday, November 4, 2023, Ernie Little, MMR opened his "Norfolk Southern Connector" railroad as a part of the Potomac/James River Division's joint meet. Ernie's HO scale HO scale layout is of approximate 12 by 20 feet in size set in the Shenandoah Valley. The buildings and structures are named for grandchildren, family members, and a few members of the Potomac Division. Since the last visit in 2018 the layout has grown significantly with the addition of a helix and a second level and additional structures and LED lighting.
