

## 11. Rich Steinmann's Coffee Sign

The G. Washington Coffee Refining Company was a real industry in Morris Plains, NJ. The building is a kit-bash that approximates the actual building which is now gone. For some time it was a Lipton Tea factory. The sign is from a search of the internet for the logo of the company which turned up a reasonably accurate image. I resized the image to fit on a billboard kit I had purchased at some time in the distant past and repurposed as the building sign. *Rich Steinmann, MMR*
