

## 5. Alex Belida's Engine Shed and Water Tower

I have two kits ([photo above](#)) sitting on the shelf in my combo workshop-train room. One is a Scale Model Masterpieces kit for a “*Backwoods Ramshackle Engine Shed.*” The other is a Bar Mills model called “*The Water Tower at Cranberry Yard.*” Both are HO scale. I envision them sitting on a spur up by my sawmill and lumber yard ([photo below](#)). I hope I can get to work on them soon. *Alex Belida, MMR*
