

## 8. Greg Cassidy's Brewery

I recently finished this Pola kit for the Rockville Model Railroad Society to sell at Timonium. It came in with a donation as an open box with all the parts removed from the sprues. It would be hard to ask for more than a couple dollars for a possibly incomplete kit, which was made harder because the instructions showed very little. So I decided to build it to see if all the parts were there. Happily, they mostly were, and now we can ask for a few dollars more. **Greg Cassidy**
