

## 11. Bob Sprague's Pair: 2-8-0 & 0-6-0

#23 ([above](#)) is a brass United/PFM decapod custom re-motored with DCC, sound, and lights, painted and weathered by Dennis Barthalow of ELS Train Service. It is pulling a manifest freight through the Baltimore countryside on my Ma & Pa Roland Park Division layout. #29 ([below](#)) is a brass Samhongsu 0-6-0 custom re-motored with DCC, sound, and lights, also painted and weathered by Dennis Barthalow, sitting in what will be the town of Bel Air, Maryland on the Ma & Pa Roland Park Division layout. **Bob Sprague**
