

## 4. Ken Nesper's Camel Drawn Wagon

Mrs. Farmer has finished her shopping at Mooney's Store and Supply and is headed to her wagon for the trip back to the farm pulled by her faithful camel. This scene appears on my On30 version of the Ohio River & Western Railway. Mooney's store is built from a Quality Craft kit (#603) acquired nearly 35 years ago. Her buckboard wagon is a Xeodon Design kit. I'm not sure how or when I acquired the two-hump camel. **Ken Nesper**
