

6. Howard Forman's Tunnel to Nowhere

My previous layout was in a two room apartment above my three car garage. The layout was 455 square feet in size and the track ran through a wall into and out of the back room. I never got it finished before I moved. Now, I share my layout space with our exercise equipment and my digital piano, so it's about 65 square feet. To make it look bigger, I created a small mountain tunnel that doesn't go anywhere and placed a steam engine to look as if it is coming out of the tunnel.

Howard Forman
