

5. ERNIE LITTLE'S JOYCEVILLE FIRE DEPARTMENT

With the holiday season, the town of West Joyceville held a Christmas parade that went by Fire Station 3, to celebrate the occasion. "B" shift personnel of the Joyceville Fire and Rescue Department participated and delivered Santa to Lewis Park where he presented gifts to the local children of the community. This gave the Department a chance to show off the apparatus and their markings that were custom made on Microsoft Word, a

laser jet printer and white laser jet decal paper scaling the decal to fit the various apparatus. After application of the decal, a coat of Dullcote was applied to seal the decals. The pictures show the apparatus at various locations on the parade route.
