

## 8. RICH STEINMANN'S COFFEE COMPANY

On my Erie-Lackwanna Morris and Essex Division, a prominent industry at Morris Plains in the Lipton Tea factory. The building is a kitbash that closely models the real thing. I was lucky to get photos before it was torn down a few years ago. Before it was Lipton Tea, it was the G. Washington Coffee Refining Company. I found the logo from an old ad on the Internet, resized it, and printed it out to fit on a billboard model kit. It fits very well and helps identify a specific industry for the crew on the Morris Roustabout.
