

6. ERNIE LITTLE'S NORFOLK SOUTHERN CONNECTOR INDUSTRIES

There are several industries on my HO scale Norfolk Southern Connector railroad. Austin Fuel, Elizabeth's Pellet Company, and LaGuardia Energy are three of them. They are located in the town of Joyceville and are major contributors to the economic stability of the community. The first two were named for two of my grandchildren and were scratchbuilt using parts from styrene plastic kits that I had used in the past. The last was constructed from number of Walther's buildings that were sold as an "ethanol facility" and is named for a fellow model railroader. *Ernie Little MM*
